DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18 & 19 are rejected under 35 U.S.C. 102(b) as being anticipated by McAllister (US Patent No. 5,984,145). McAllister discloses a water dispensing system comprising: a water container (14), a pump disposed within a housing (24), a pump consisting of a pump switch (32) and drinking tube (34). The preamble is a mere matter of intended use, therefore the disclosed invention of McAllister may all be use by a driver of a vehicle or a biker.

Double Patenting

Claims 1-17 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-39 of U.S. Patent No. 6,755,047. Although the conflicting claims are not identical, they are not patentably distinct from each other because the insulated bag tetrafluroethylene polymer is deemed similar to PTFE Teflon coating.

Allowable Subject Matter

Claims 29-38 is allowed over the prior art of record.

Claims 20-28 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
